God's Love Is Also Likened to A Mother's Love

Thailand celebrates Mother's Day on 12th August. To coincide with it, our sermon series looks into the various aspects of God's motherly love in training, caring, protecting, comforting and birthing us. We thank you for journeying with us as we brave through the current challenges under God's multifaceted motherly love.

In addition to our current Friday's Thai/English and Saturday's Chinese bible study groups, we thank God for our new discipleship group held every Monday evening. Led by Sarah, this group comprises of two categories: (1) university students (Mr. Johnny, Ms. Tang, and Ms. Na); and (2) pre-university students (Mr. Non, Ms. Debbie, Ms. Rachel). Please pray that these lives will be firmly rooted in our church and grow to be fruitful and faithful disciples. We also thank God that we are planning to start another new discipleship group headed by Henry, on Saturday to include the following: Mr. Nyein Chan (Myanmar), Mr. Silvilai (Lao), Mr. Anthony (Philippines) and Ms. Emily (Myanmar). Please pray that it shall materialize, stabilize and bear lasting fruits. We thank God that Naomi's rededicated contact, Ms. Rebecca (currently in Taiwan) has also been joining our online activities. As Naomi seeks to reach out to the Thai community, please pray for her success too. Besides them, please pray for all members to be faithful and fruitful in their walk, giving, ministries, outreach and discipleship too.

During this period of time, Henry, Naomi and Sarah have been heavily engaged in their assignments, presentations, and examinations while working to support themselves and serving actively in church. By God's grace, I have been able to assist them in their

studies in both official and informal capacities. This includes Henry's proposal exam, and the sisters' preliminary research proposal presentations. Please pray for us to be filled with God's wisdom, strength, favor and grace in this process. Finally, as Thailand resumes domestic flights while having 18,000 new Covid-19 cases daily on average, please pray that the situation will not worsen and it will not affect our church's members and the operation and growth of our ministries.
